

Open During Covid-19

by Dovid & Esti Baum

Directory app to support our local Teaneck restaurants and businesses during the Covid-19 outbreak.

Scan with camera to install app.

Not an official RCBC app.

Announcing a new APP for iPhone and Android that can be used on the web. - Developed by Dovid Baum & Esti Baum as a public service to the community - not a business. Do you want to know which local restaurants are open and which delivery/pick-up service they're providing?

This app will make it easier for us to help our local businesses by providing the correct information on who is open during the COVID-19 crisis and when. The app will be constantly updated with the latest protocols restaurants are using and store times.

How to use:

To use on an iPhone: open the link on your phone in Safari (<https://openduringcovid19.app/>) press the symbol on the bottom taskbar (box & upward arrow) and scroll until you see "Add to Home Screen"- it will then function as an app.

To use on a Computer: Follow this link to use on any web browser: <https://openduringcovid19.app/> (it will come up looking like an iPhone-but you can press on the restaurants and it will work)

To use on an Android: open link (<https://openduringcovid19.app/>) on the top right, press the 3 dots- that will open a menu bar, click on "Add to Home screen"

To use on an iPad: open the link (<https://openduringcovid19.app/>), on the top by the search bar there will be a symbol to open (box & upward arrow), press that and then scroll to see "Add to Homescreen"
